

VIDEO: RFD TV – The ripple effects on the U.S. farm sector and food security following Russia’s invasion of Ukraine

Reaction continues in the ag sector following Russia’s invasion of Ukraine. While the impact has already hit the markets, many are speculating over the potential ripple effects on U.S. ag. HTS Commodities Senior Analyst Walter Kunisch spoke with RFD-TV’s Janet Adkison on what the invasion means for global food security, how it will affect American farmers, and how China could play a part.
